

FROST BARRIER

Frost Barrier protects your flowers, shrubs and plants against night frost, burning sun, wind, heavy rain storms, birds, insects and other pests.

PROTECTIVE, LIGHT WEIGHT BLANKET FOR PROTECTION OF PLANTS AND SHRUBS

- Light and very strong
- Thin enough to let your plants breathe
- Allows water through
- Allows 90% of light through
- Resistant to UV rays
- Can be re-used for many years

The high light porosity of 90% and the breathing capability of Frost Barrier allows a well balanced amount of water and light through and thus allows healthy plant growth.

PROTECTION AGAINST TEMPERATURE CHANGES

Frost Barrier reduces extreme cold and hot spells.

WATER AND MOISTURE

Frost Barrier creates a micro climate suitable for balanced and optimal plant growth.

SUNLIGHT

Frost Barrier filters the sun's strong rays.

INSECTS, BIRDS AND OTHER ANIMALS

Frost Barrier prevents damage caused by flying insects, birds and many other animals.

TECHNICAL PROPERTIES:

Size: 1m x 15m
1m x 50m
3m x 500m

Unit weight: 17g/m²
